Experience

Dietary Intern – Columbia University
01/2004 – 12/2004

Clinical Nutrition Intern – Kingsbrook Jewish Medical Center

Assisted in screening, assessments and patient education in the following areas of the medical

center: Pediatrics, ICU, CCU, Dialysis, Long-Term Care, In-Patient, Out-Patient and Diabetes.

Created original education material for out-patient diabetes center.

Food Service Management – Flick Corporation

Assisted with quality assurance, marketing, HACCP (Hazard Analysis and Critical Control Point) and food service management.

HIV Research Clinic Intern – Pacific Oaks Medical Group

Solely responsible for patient education. Established extensive patient education library with entirely self-developed education material.

Exercise Physiology Intern – La Palestra and Altheus Fitness Centers

Created client education material for a wide range of disease/sports specific topics. Worked with clients assessing their needs and developed nutrition and exercise strategies to achieve their goals.

Community Nutrition Intern – Hartley House

Worked independently with a diverse group of clientele, including grade school children ages 6-14 and elderly populations. Developed lesson plans and exercise programs for all age groups. Helped develop promotional materials to advertise a health fair and served as nutrition/exercise representative at the fair doing blood pressure screenings, body fat analysis and Body Mass Index calculations.
